

I cannot believe that you would diminish the protections I now receive from the "Indiana Telephone Privacy Law"! The "Law" has been wonderful. I no longer receive rude and obnoxious sales pitches from telemarketers from early in the day until 9:00 or 9:30 PM daily. I used to receive as many as 6 or 7 of these calls while trying to prepare dinner for my family and again later when I was trying to spend time with my family. If I should be in need of any of their services, I would contact them! I do not like to be harassed by rude telemarketers insisting that I am missing my chance. Please, please do not change the "Indiana Telephone Privacy Law" in any way!!!!
